Al-rizwan college, Nanded

Projects

o College Management System

A college management system is an ERP solution that enables the institutes to conduct online admissions, generate reports, create ID cards, enable online communication, manage curriculum, time tables and conduct online evaluations, track student progress, conduct data analysis, teach remotely, and handle enquiries and leads for admissions in the college.

o E-Commerce website

Develop an eCommerce website offering a wide range of products with user-friendly navigation, secure payment options, and efficient customer service to enhance the online shopping experience.
